

Civil Engineering  
Academic year 2014-15

**Students**

- Introduce some courses to improve the practical knowledge.
- Modify the curriculum and syllabi to help the students for GATE preparation and placements

**Teacher**

- In plant training is required for students to understand the theoretical concepts
- Some advanced courses may be introduced related to industry

**Employer**

- Students requires soft skill training
- Little programming knowledge related to civil engineering is to be improved

**Parents**

- Motivate the students for higher studies.

**Alumni**

- Motivation for participation in co-curricular and extra-curricular activities
- More industry oriented courses may be introduced in the curriculum

**Action Taken Report**

Being an affiliated college of JNTUH, university curriculum and syllabi is being followed. The college is following the below mentioned actions to bridge the curriculum gap.

The college follows a continuous review system for the curriculum. The Institution would like to include the following aspects which will enrich the curriculum

- Efforts are taken to arrange the in-plant training for the students
- Conducting courses on communication skills and Employability Skills
- It is planning to extend the library facilities for students
- Guest lecture are arranged to bridge the curriculum gap.
- Seminar is arranged to create awareness about higher studies
- Encourage the students to attend the co-curricular and extra-curricular activities.
