

Electrical and Electronics Engineering

Academic year 2013-14

Students

- More hands-on session is needed for programming course and problem oriented courses
- Syllabus may be framed by considering industry requirements

Teacher

- More practical courses may be included in the syllabi
- Core course training is needed to the students for placements

Employer

- Industry related guest lecture may be arranged for students to know about the industry trends
- Soft skill training may be given to students.

Parents

- Practical oriented learning should be implemented
- Workshop may be conducted by calling resource persons from industry

Alumni

- Training programmes are needed in current technologies
- Suggested to arrange communication skill training to improve their language

Action Taken Report

Being an affiliated college of JNTUH, university curriculum and syllabi is being followed. The college is following the below mentioned actions to bridge the curriculum gap.

The college follows a continuous review system for the curriculum. The Institution would like to include the following aspects which will enrich the curriculum

- Efforts were taken to give more hands-on sessions in programming language and problem oriented courses

- Syllabus changes noted and communicated to the university
- Workshops are arranged to introduce latest technologies in computer science.
- New paper is given to all students to improve their communication skill
